

## **Potential Hearing Examiners, Mediators, and Settlement Conciliators**

This list reflects potential hearing examiners, mediators, or settlement conciliators with specific experience in Labor and Employment Law *other* than the “usual suspects” of retired local judges or arbitrators. Everyone is generally familiar with the most commonly selected arbitrators in Alaska and/or with our pool of local retired judges. All of these are of course fine candidates to serve as a hearing examiner, mediator, or settlement conciliator. However, the concept underlying this list was to develop a list of alternative candidates, even non-attorneys where appropriate, who had HR management or similar experience and who may charge reduced rates or be more available for certain needs on an expedited schedule. This list is not ranked or sorted. This list is not intended as and should not be construed as a recommendation with respect to any individual appearing on the list. Anyone interested in possibly retaining an individual on the list to serve as a hearing examiner, mediator, settlement conciliator, or in any related role or capacity is responsible for due diligence.

### **The List (in alphabetical order)**
